

TUSAŞ MAKES A NEW ALLIANCE WITH A MANUFACTURER FROM SIVAS

Considering the importance of research and development activities, Turkish Aerospace Industries Inc. (TUSAŞ) share its experience with small and middle scaled enterprises by subcontracting.

In this sense, manufacture of the forming molds for aircrafts was contracted out to a Sivas company, Gökçeler Machinery Co. Ltd. and the production was carried out successfully.

Revealing the development potential in defense and aviation industries, this alliance constitutes a significant motivation source for the integration process between TUSAŞ and local industry.

Within this scope, with the presence of Minister of Defense, Mr. İsmet Yılmaz, a cooperation protocol was signed by and between TUSAŞ and Gökçeler Machinery Co. Ltd. in a ceremony held in Sivas Chamber of Trade and Industry in 10.02.2012.

TUSAŞ executives emphasized the importance of offsetting in airliner purchases for the development of the local aviation industry and lucrative exporting.
